SECURE SHIPS

# Anchoring Quality

## Company Profile

Secure Ships started with limited scale operations in 2008 and eversince it has expanded in all terms to become a major player in the Ship repair and maintenance industry. Our clients are satisfied because of our extensive experience, expertise, and quality of service that we offer.  Our goal remains to deliver undeterred services beyond expectations.

## Mission

Our mission is to provide our clients with high-quality, cost-effective services on time and on budget. We believe and stay positive to this core principle so that everything else will falls into place thereby making our services exceed the expectation of our clients.

## Vision

Our goal is to become one of the key players in the industry by delivering highest levels of efficiency and thereby being an institution trusted by both clients and society.

## Objectives

Secure Ships objectives for 16+ years of operations in-

- To create a service based company whose the number one goal is exceeding customer's expectations.
- To work with all of our suppliers and clients to ensure that we are using items that are necessary for the successful delivery of our services while also being environmentally aware, which satisfy the standards for environmental friendliness.
- Wherever possible we use equipment that reduces overall consumption.
- The continuous support and training we deliver to our employees includes these visions and values.

**Our goal is to deliver beyond your expectations and we achieve it by utilizing our full potential in all our service and interactions.**
